# Corporate Business Planning

All Western Australian local governments are required to prepare a Plan for the Future for their district, comprising of two key strategic documents, being a Strategic Community Plan and Corporate Business Plan, which the local government is required to have regard for when forming their annual budget.

The Strategic Community Plan is Council's principal 10-year strategy and planning tool, guiding the remainder of the Shire's strategic planning. Achieving the community's vision and the Shire's strategic objectives requires the development of actions to address each strategy contained within the Strategic Community Plan.

Careful operational planning and prioritisation is required to achieve the objectives and desired outcomes due to the limited resources available. This planning process is formalised by the development of the Corporate Business Plan.

Actions requiring funding will only be undertaken once approved within the statutory budget and subject to funding availability. Along with achieving the community aspirations and objectives, the Corporate Business Plan draws on information contained within the long term financial, asset management, workforce plans.

This Corporate Business Plan 2024 – 2028, together with the Strategic Community Plan, is the Shire of Halls Creek's Plan for the Future.

# Our Aspirations and Values

The Shire of Halls Creek has a lot to offer, an amazing environment, an abundance of land, friendly communities and a relaxed lifestyle.

Connection to Country is an important and vital part of the Aboriginal culture and the people who live in the district. The Tanami Road provides an important link for a number of the district's remote communities before traversing the Tanami desert on its way from Halls Creek to Alice Springs. It provides access to the communities of Billiluna, Balgo and Mulan as well as the start of the Canning Stock Route. The Duncan Road provides access to the community of Kundat Jaru (Ringer Soak) and beyond through a variety of landscapes and the Sturt Creek River system.

There are significant resource sector opportunities in the district including, gold, copper and dysprosium. At the time of the 2016 census, the population was just under 3,200<sup>1</sup> and 74% of the population identified themselves as Aboriginal. The Shire covers an area of 133,061km<sup>2</sup> including significant Aboriginal communities, World Heritage listed Purnululu National Park and Lake Gregory along with significant pastoral interests.

The unique natural environment presents many opportunities to unlock a range of alternative new industries and businesses. There is great opportunity to maintain and enhance this attractive, desirable and welcoming place, to attract and retain families, visitors and investment.

To ensure there is adequate consideration of the social and environmental impacts of future development, continued planning is required to achieve balanced growth for our communities, whilst maintaining connection to Country, protecting and enhancing the natural environment and community lifestyle.

## Strategic Objectives

**Local Jobs:** That access to employment is a right, from employment respect and growth are possible.

**Local Economy:** Communities that develop strong economies, with increasing local employment, training and income generation opportunities.

**Local Social:** Develop welcoming, safe, liveable and thriving communities that are continually expanding healthy lifestyle options and opportunities whilst maintaining natural and built environments.

**Local Leadership:** Communities and organisations that foster leadership, collaboration, innovation, entrepreneurship and good governance.

## Service Delivery

The Shire of Halls Creek delivers services to its community in line with its vision and the key strategic objectives set out above.

The detailed actions to achieve these strategic objectives have been reviewed and updated as part of the Corporate Business Planning process. These actions and their prioritisation is reflected by the following symbols, indicating when the action is planned to be undertaken.

Ongoing	
Short - Medium Term	2024-2028
Longer Term   2028 onwards	

As the Shire strives to achieve these outcomes, the community will be kept informed of the progress by means of the Annual Report.

# Strategic Risk Management

It is important to consider the external and internal context in which the Shire of Halls Creek operates, relative to risk, in order to understand the environment in which the Shire seeks to achieve its strategic objectives.

## External Factors

- Increasing community expectations in relation to service levels and service delivery
- Rapid changes in information technology changing the service delivery environment
- Increased compliance requirements due to Government Policy and Legislation
- Cost shifting by Federal and State Governments
- Reducing external funding for infrastructure and operations
- Changes in mining and pastoral practices and the associated social impacts
- Climate change and subsequent response
- Significant seasonal population increase and subsequent pressure on Council services
- Extensive increase in non-rateable land requiring road access
- Changing global economic environment

## Internal Factors

- The objectives and strategies contained in the Council's current Strategic Community Plan
- The timing and actions contained in the Council's Corporate Business Plan
- Organisational size, structure, activities and location
- Human resourcing levels and staff retention
- The financial capacity of the Shire
- Allocation of resources to achieve strategic outcomes
- Maintenance of corporate records
